CONTENTS OF VOLUME 145

No. 1, September, 1942

PAGE

Waelsch, Heinrich, and Miller, Herbert K. The relation of keto acid excretion to amino acid metabolism 1

Knight, C. A. The physical and chemical properties of a distinctive strain of tobacco mosaic virus 11

Ross, William F., and Tracy, Ann H. Carbon suboxide and proteins. VI. Chymotryptic digestion of malonyl egg and serum albumins 19

Klein, J. Raymond, Perlzweig, William A., and Handler, Philip. Determination of nicotinic acid in blood cells and plasma 27

Klein, Daniel. The effects of administration of glucose and insulin on blood pyruvate and lactate in diabetes mellitus 35

Vickery, Hubert Bradford, Pucher, George W., and Deuber, Carl G. The preparation of asparagine 45

McConnell, Kenneth P. Respiratory excretion of selenium studied with the radioactive isotope 55

Baer, Erich, and Fischer, Hermann O. L. Synthesis of dimethyl ethers of the two enantiomorphic α-butyrins and their hydrolysis by lipases 61

Green, D. E., Westerfeld, W. W., Vennesland, Birgit, and Knox, W. E. Carboxylases of animal tissues 69

Clark, William G., Levitan, Nathan I., Gleason, Donald F., and Greenberg, Goodwin. Titrimetric microdetermination of chloride, sodium, and potassium in a single tissue or blood sample 85

Melville, Donald B., Hofmann, Klaus, and du Vigneaud, Vincent. The hydrolysis of biotin sulfone 101

McKibbin, J. M., Schaefer, A. E., Elvehjem, C. A., and Hart, E. B. Studies on hemorrhagic anemia in dogs 107

Orten, James M., and Sayers, George. A comparison of the disposition of injected glucose in two strains of rats 123

Gunsalus, I. C., and Niven, Charles F., Jr. The effect of pH on the lactic acid fermentation 131

Black, Simon, Overman, Ralph S., Elvehjem, C. A., and Link, Karl Paul. The effect of sulfaguanidine on rat growth and plasma prothrombin 137

Handler, Philip, and Dann, W. J. The biochemical defect in nicotinic acid deficiency 145

Overman, Ralph S., Stahmann, Mark Arnold, and Link, Karl Paul. Studies on the hemorrhagic sweet clover disease. VIII. The effect of 2-methyl-1,-4-naphthoquinone and *l*-ascorbic acid upon the action of 3,3′-methylenebis-(4-hydroxycoumarin) on the prothrombin time of rabbits 155

Quackenbush, F. W., Steenbock, H., and Platz, Blanche R. The non-specificity of thiamine in fat synthesis 163

Quackenbush, F. W., Cox, R. P., and Steenbock, H. Tocopherol and the stability of carotene 169

Greenberg, David M., and Cuthbertson, Elizabeth M. Dietary chloride deficiency and alkalosis in the rat 179

Nims, L. F., Gibbs, E. L., and Lennox, W. G. Arterial and cerebral venous blood. Changes produced by altering arterial carbon dioxide 189

BRAUN, ALBERT E. The effect of some inorganic plant nutrients on malt diastase activity 197
CAHILL, WILLIAM M., and RUDOLPH, GUILFORD G. The replaceability of *dl*-methionine in the diet of the rat with its α-keto acid analogue 201
PATTERSON, JEAN M., and MCHENRY, E. W. Choline and the prevention of hemorrhagic kidneys in the rat 207
BERNHEIM, FREDERICK, and BERNHEIM, MARY L. C. The action of phenylthiocarbamide on tyrosinase 213
KIRSNER, JOSEPH B. The serum electrolytes in the dog before and during acute alkalosis induced by sodium bicarbonate 219
LIEBEN, FRITZ, and LOO, YEN CHIN. On the liberation of free amino nitrogen from proteins in the Van Slyke apparatus 223
SCHMIDT, L. H., HUGHES, HETTIE B., GREEN, MARY H., and COOPER, ELIZABETH. Studies on bile acid metabolism. II. The action of *Alcaligenes faecalis* on cholic acid 229
PILGRIM, FRANCIS J., AXELROD, A. E., and ELVEHJEM, C. A. The metabolism of pyruvate by liver from pantothenic acid- and biotin-deficient rats 237
ABBOTT, LYNN DEFORREST, JR. Availability of formylglycine, acetylglycine, and propionylglycine for the synthesis of hippuric acid by the rabbit 241
BERGMANN, MAX, and FRUTON, JOSEPH S. The influence of substrate structure on the kinetics of carboxypeptidase action 247
FRUTON, JOSEPH S., and BERGMANN, MAX. The multiple specificity of chymotrypsin 253
ROBERTS, EUGENE, and CHRISTMAN, A. A. The influence of lactose and its hydrolysis products on the absorption of calcium 267
HOGEBOOM, GEORGE H., and ADAMS, MARK H. Mammalian tyrosinase and dopa oxidase 273
TAUROG, ALVIN, CHAIKOFF, I. L., and PERLMAN, I. The effect of anaerobic conditions and respiratory inhibitors on the *in vitro* phospholipid formation in liver and kidney with radioactive phosphorus as indicator 281
TENENBAUM, LEON E., and JENSEN, H. Catecholase (tyrosinase): an improved method of preparation 293
AXELROD, A. E., SWINGLE, KARL F., and ELVEHJEM, C. A. Studies on the succinoxidase system of rat liver in riboflavin deficiency 297
BERGSTRÖM, SUNE, and WINTERSTEINER, O. Autoxidation of sterols in colloidal aqueous solution. III. Quantitative studies on cholesterol 309
BERGSTRÖM, SUNE, and WINTERSTEINER, O. Autoxidation of sterols in colloidal aqueous solution. IV. The influence of esterification and of constitutional factors 327
EVANS, JOHN S., and HAUSCHILDT, JAMES D. The influence of enzymes upon the activity of gonadotropin of pregnant mare serum 335

Letters to the Editors

MCGINNIS, JAMES, NORRIS, L. C., and HEUSER, G. F. An unidentified nutritional factor required by the chick for feather pigmentation 341
WENDEL, WILLIAM B., and KIMBALL, SYDNETTE. Formation of lactic acid and pyruvic acid in blood containing *Plasmodium knowlesi* 343
FISHMAN, WILLIAM H., and ARTOM, CAMILLO. Serine injury 345
ARNOW, L. EARLE, KAZAL, LOUIS A., and DE FALCO, RALPH J. The preparation of apparently non-antigenic beef serum protein by treatment with alkali 347

No. 2, October, 1942

Hamlin, Kenneth E., Jr., and Hartung, Walter H. The synthesis of α-amino acids from substituted acetoacetic esters 349
Brand, Erwin, and Kassell, Beatrice. Photometric determination of arginine 359
Brand, Erwin, and Kassell, Beatrice. Analysis and minimum molecular weight of β-lactoglobulin 365
Koepsell, H. J., and Johnson, Marvin J. Dissimilation of pyruvic acid by cell-free preparations of *Clostridium butylicum* 379
MacFadyen, Douglas A. Determination of amino acids in plasma by the ninhydrin-carbon dioxide reaction without removal of proteins 387
Sizer, Irwin W. The action of certain oxidants and reductants upon the activity of bovine phosphatase 405
Bovarnick, M. The formation of extracellular *d*(−)-glutamic acid polypeptide by *Bacillus subtilis* 415
Müller, Otto H. Oxidation-reduction potentials measured with the dropping mercury electrode. IV. Polarographic study of α-oxyphenazine 425
Meyerhof, Otto, and Junowicz-Kocholaty, R. The two-fold activation of carbohydrate breakdown by arsenate and the dephosphorylation of phosphopyruvic acid 443
Laskowski, Michael. Oxygen consumption during the histamine-histaminase reaction 457
Westerfeld, W. W., and Lowe, Charles. The oxidation of *p*-cresol by peroxidase 463
Woodward, Gladys E., and Reinhart, Francis E. The effect of pH on the formation of pyrrolidonecarboxylic acid and glutamic acid during enzymatic hydrolysis of glutathione by rat kidney extract 471
Pauls, Frances, and Drury, Douglas R. The influence of insulin upon glycogen storage in the diabetic rat 481
Gould, R. Gordon, Jr., Craig, Lyman C., and Jacobs, Walter A. The ergot alkaloids. XIX. The transformation of *dl*-lysergic acid and *d*-lysergic acid to 6,8-dimethylergolines 487
Kilmer, Glen W., Armstrong, Marvin D., Brown, George Bosworth, and du Vigneaud, Vincent. Synthesis of a 3,4-diaminotetrahydrothiophene and a comparison of its stability with the diaminocarboxylic acid derived from biotin 495
Hofmann, Klaus, Kilmer, Glen W., Melville, Donald B., du Vigneaud, Vincent, and Darby, Hugh H. The condensation of phenanthrenequinone with the diaminocarboxylic acid derived from biotin 503
Pucher, George W. The organic acids of the leaves of *Bryophyllum calycinum* .. 511
Pucher, George W., and Vickery, Hubert Bradford. On the identity of the so called crassulacean malic acid with isocitric acid 525
Schmidt, E. G. An ether extraction method for the determination of urine phenols 533
Bischoff, Fritz. Concerning the reversible inactivation of prolan 545
Kapp, Eleanor M., and Coburn, Alvin F. Urinary metabolites of sodium salicylate 549
Somogyi, Michael, and Weichselbaum, T. E. Ketone-sparing effect of glucose 567

Somogyi, Michael. Effects of glucose feeding upon the ketonemia in healthy man 575
Swingle, Karl F., Axelrod, A. E., and Elvehjem, C. A. The mechanism of the effect of calcium salts on the succinoxidase system 581
Chargaff, Erwin, Moore, Dan H., and Bendich, Aaron. Ultracentrifugal isolation from lung tissue of a macromolecular protein component with thromboplastic properties 593
Anchel, Marjorie, and Waelsch, Heinrich. The higher fatty aldehydes. I. Isolation from small amounts of tissue with acidic carbonyl reagents 605
Kuyper, Adrian C. The rate of excretion of ingested acid and alkali 615
Sullivan, M. X., Hess, W. C., and Howard, H. W. The quantitative estimation of both cystine and cysteine in mixtures 621
Bloch, Konrad, and Rittenberg, D. On the utilization of acetic acid for cholesterol formation 625
Scudi, John V. Conjugated pyridoxine in rice bran concentrates 637
Hubbard, Roger S., and Loomis, Ted A. The determination of inulin 641
Kerr, Stanley E. Studies on the phosphorus compounds of brain. III. Determinations of adenosine triphosphate and its decomposition products in fresh and autolyzed dog brain 647
Borchers, Raymond, Berg, Clarence P., and Whitman, Newton E. Tryptophane metabolism. X. The effect of feeding *l*(−)-, *dl*-, and *d*(+)-tryptophane, *d*(−)- and *dl*-β-3-indolelactic acid, β-3-indolepyruvic acid, and *l*(−)-kynurenine upon the storage of liver glycogen and the urinary output of kynurenic acid, kynurenine, and total acetone bodies 657
Toennies, Gerrit. The oxidative conversion of casein into protein free of methionine and tryptophane 667
Bennett, Mary Adelia, and Toennies, Gerrit. A nutritional assay of casein modified by the action of hydrogen peroxide and formic acid 671
Rose, William C., Johnson, Julius E., and Haines, William J. The metabolism of valine in phlorhizin glycosuria 679
Kies, Marian W., and Schwimmer, Sigmund. Observations on proteinase in brain 685
Frost, Douglas V. The water-soluble riboflavin-boron complex 693
Petermann, Mary L., and Hakala, N. V. Molecular kinetic and electrophoretic studies on carbonic anhydrase 701

Letters to the Editors

Buskirk, Harold H., and Delor, R. A. The use of mylase P in the preparation of natural materials for microbiological pantothenic acid assay 707
Carter, Herbert E., and Norris, William P. Isolation of dihydrosphingosine from brain and spinal cord 709
Hamilton, Paul. A glutamine-like substance in blood plasma 711
Nielsen, Edward, and Elvehjem, C. A. The growth-promoting effect of folic acid and biotin in rats fed succinylsulfathiazole 713
Buchanan, John M., Hastings, A. Baird, and Nesbett, Frances B. Glycogen formation from pyruvate *in vitro* in the presence of radioactive carbon dioxide 715
